

DHC®

MODEL BT2000EV GOLF CART BATTERY ANALYZER

GOLF CART SOLUTION

Specializing in Advanced Deep Cycle Battery Diagnostics.

Designed exclusively for the golf cart and motive power battery market, DHC is introducing the BT2000EV tester as an advanced warranty management tool to make sure batteries are ready for play and keep carts on the go with the DHC "SMART" HTML PC interface.

- **Easy-to-Read Intuitive Interface**
- **Complete Test Report**
- **Advanced HTML Interface to Fully Utilize Test Data**
- **"SPEED CHECK" on Deep Cycle Batteries by OE Numbers**
- **Fully Field Upgradeable**

Featuring patented single load, dynamic resistance technology provides accurate results for the deep cycle 6, 8, 12V batteries.

SPECIFICATIONS:

Application: 6V, 8V & 12V Batteries

Test Range: On-Board Menus

-Battery Manufacturer

-Battery Model Number

Voltage Range: 1.5Vdc - 60Vdc

Cable Length: 5.9 FEET/180 CM

Thermal Printer: Integrated

Display: 4 Lines Back-Lit LCD

Operating Temp.: 32°F to 122°F

(0°C to 50°C)

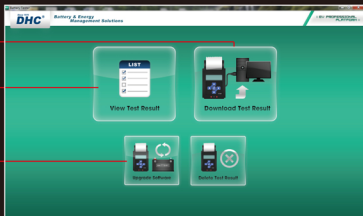

CUSTOMIZED PC INTERFACE:

Upload test data to PC.

Review test data.

Upgrade the on-board
battery numbers.

BT2000EV KITS

DHC BT2000EV is available in a complete kit. You will receive a variety of value-added extras that offer convenience and comprehensive functionality.

Printing Paper

Hard Case

AA Battery

Software Installation CD

Amp Clamp

DMM Probe

USB Lead

BT2000EV
Golf Cart Battery Analyzer

Part Number Includes

BT2000EV Kit	Analyzer, 5.90' Cable Leads, DMM Probe, Carrying Case, and Amp Clamp.
R011	Replacement Cable Leads
R012	Printing Paper
R013	Battery Cover
A011	Amp Clamp
A012	DMM Probe
R014	Lead Cover
A013	USB Lead
A014	Carrying Case
